

SIRCO M and MV

Universal load break switches
from 16 to 160 A

Load break
switches

Function

SIRCO M and MV are manually operated and modular multipolar load break switches.

They make and break under load conditions and provide safety isolation for any low voltage circuit, particularly for machine control circuits.

Through the use of accessories, SIRCO M can be transformed into multipolar load break or 3/4 pole changeover switches. SIRCO M changeover switches provide on load changeover switching between two sources or two low voltage power circuits, as well as their safety isolation.

Advantages

Total integration

The SIRCO M and MV fully integrate isolation, breaking and switching functions.

Within a single product, SIRCO M offers front, right side or left side operation. Their highly functional design enables SIRCO M to be easily transformed from a load break switch to a changeover switch, offering a highly innovative modular solution for numerous applications.

Wide range of accessories

A single standard 3 pole load break switch module, which can be complemented with a choice of accessories, offers a range of advantages:

- Simplicity when choosing the device.
- Flexibility to adapt to the most varied applications.
- Reduction in the cost of management and storage.

Upgradeability

Its wide range of accessories means that the SIRCO M can be upgraded, even after it has been commissioned, enabling future requirements to be met.

Compliance with major certifications and approvals

The SIRCO M and MV range of load break switches have been designed, qualified and tested according to the criteria defined by standards IEC 60947-3, UL508 and UL98.

This process guarantees a high quality level for the product which is fully adapted to arduous operating environments.

General characteristics

- Double break per pole.
- Mounting options: DIN-rail, panel or modular panel with 45 mm front cut-out.
- IP20 accessories.
- Severe utilisation categories (AC-22 and AC-23).

Specific characteristics

SIRCO M:

- Positive break indication.
- Contact point technology.
- Product can be mounted directly on the door or panel side; see "Door mounting kit" in the accessory section.

SIRCO MV:

- Visible double breaking based.
- Positive break indication.

The solution for

- > Main incoming load break.
- > Distribution load break.
- > Machine control.
- > Local safety load break.

Strong points

- > Total integration.
- > Wide range of accessories.
- > Upgradeability.
- > Compliance to major certifications and approvals.
- > Specific characteristics.

Conformity to standards

- > IEC 60947-3

- > Other standards available:

*See pages SIRCO UL and CSA range

Approvals and certifications⁽¹⁾

(1) Product reference on request.

Local safety enclosures

- > Fitted within a polycarbonate enclosure, the SIRCO M can be used, for example, for on-load breaking of a motor (AC23).

What you need to know

SIRCO M

- SIRCO M can be operated in 3 different ways:

Complete switch body for toggle operation

Direct front operation with handle

External operation
front, left side or right side

- The SIRCO M is a **3 pole** load break switch which is available from **16 to 125 A**. It can be combined with a switched 4th pole, an unswitched neutral or PE pole and pre-break and signalling auxiliary contacts.
- The basic 3 pole device is available enclosed in a polycarbonate enclosure from 16 to 100 A (see page 600).
- From **16 to 125 A**, through the wide range of available accessories, it is possible to convert a **3 pole SIRCO M into a 4, 6 or 8 pole load break switch** or a **3/4 pole changeover switch**.
- Through use of its door mounting kit, SIRCO M load break switches can be mounted on the panel door.

Changeover switches I - 0 - II

SIRCO MV

- 3 operations are available:

Direct front operation

External **right side** operation

External **front and left side** operation

- SIRCO MV can be ordered in **3 or 4 pole** from **100 to 160 A**.
- Two types of auxiliary contacts are available:
 - U-type pre-break,
 - M-type for signalisation.

4th pole- Additional pole for SIRCO M

Use

Installation of this switched pole converts:

- a 3 pole SIRCO M into a 4 pole load break switch,
- a 6 pole SIRCO M into an 8 pole load break switch,
- a 3 pole SIRCO M changeover switch into a 4 pole changeover switch..

Rating (A)	No. of poles	Type	Reference

Additional pole configuration

Terminal shrouds

Use

Top and bottom protection against direct contact with the terminals or connection parts.

Available in 1 or 3 pole versions for SIRCO M and in 3 or 4 pole versions for SIRCO MV.

An opening on each terminal cover makes it possible to insert a temperature measurement probe.

Accessories (continued)

M type auxiliary contacts

Use

Pre-break and signalisation of positions 0 and I by NO+NC or 2 NO auxiliary contacts. They allow to anticipate the switching of the main poles. They can be mounted on the left or on the right side of the device.

Max 4 auxiliary contacts (2 modules).

Pre-break is not guaranteed on the SIRCO MV.

Characteristics

NO+NC auxiliary contacts: IP2 with front operation.

M type

Auxiliary contact configurations for SIRCO MV

1. Maximum 2 "U" type auxiliary contacts.
2. Maximum 2 "M" type auxiliary contact modules.

For SIRCO MV

Rating (A)	Number of AC	Type of AC	Reference
100 ... 160	1 AC	NC	3999 0701
100 ... 160	1 AC	NO	3999 0702

Characteristics

Contact type	Nominal current (A)	Operating current I _o (A)			
		250 VAC	400 VAC	24 VDC	48 VDC
NC	10	3	1.8	2.8	1.4
NO	10	3	1.8	2.8	1.4

U type

sircm_048_a_1_x_cat

Use

Pre-break and signalisation by NO or NC auxiliary contact.

Maximum 2 auxiliary contacts. Only available for SIRCO MV switches.

Conversion kit

Use

This accessory enables the assembly of two 3 pole switches (+ additional pole) in order to create a:

- 6 or 8 pole SIRCO M load break switch,
- a 3 or 4 pole SIRCO M changeover switch.

SIRCO M changeover switches provide on load changeover switching between two sources or two low voltage power circuits, as well as their safety isolation (I - 0 - II); transfer without interruption of the supply is also possible (I - I+II - II).

Conversion kits are supplied with a direct front operation handle. For external operation the appropriate handle needs to be ordered.

Conversion kit for 6 or 8 pole load break switches

100 ... 125	Changeover switches I - I+II - II	2299 6011

Door mounting kit

Use

This kit enables the direct mounting of the switch on the panel door, or on the left or right side of the panel.

The connection clamps of the switch are always accessible.

The external handle is quick and easy to install with the supplied locking nut mounted on the inside of the enclosure.

3 kits are available:

- one for complete IP2X protection
- one with compact design
- one in steel for 6/8 P and 3/4 P 100/125 A.

For SIRCO M			
Rating (A)	No. of poles	Description	Reference
16 ... 80	3/4 P	Complete IP2X protection	2299 3309
16 ... 80	3/4 P	Compact version	2299 3409
16 ... 80	6/8 P	Steel support	2299 3609
100 ... 125	3/4 P	Steel support	2299 3609

Cap for side operation mounting

Use

This accessory enables the front face of the SIRCO M to be capped when the switch is side operated. 20 pieces supplied per pack.

This piece snaps into place directly on the front face of the switch.

For SIRCO M		
Rating (A)	Pack	Reference
16 ... 125	20 pieces	2299 9409

6/8 pole joining accessory

Use

This accessory enables two 3/4 pole switches to be coupled in order to provide a 6 or 8 pole switch for external side operation. 40 pieces supplied per pack.

For multi-pole switches, please consult us.

For SIRCO M		
Rating (A)	Pack	Reference
16 ... 80	40 pieces	2299 9909

DIN rail locking clip

Use

This locking clip prevents the SIRCO MV from sliding when DIN rail mounted.

For SIRCO MV		
Rating (A)	Type	Reference
100 ... 160	Locking clip M4	5000 0041
100 ... 160	Locking clip M5	5000 0051

Voltage sensing and power supply tap

Use

This single-pole voltage sensing tap allows the connection of 2 x ≤1.5 mm² voltage sensing or power cables to any SIRCO MV power terminal without reducing its connection capacity.

For SIRCO MV		
Rating (A)	Pack	Reference
100 ... 160	2 pieces	1399 4006
